SUMMARY

Detail-oriented IT undergraduate with experience in data entry, documentation, and administrative support. Skilled in managing accurate records, organizing information, and communicating clearly in English and Tamil. Motivated to support UNDP's emergency response work through efficient data management and coordination tasks.

PROFESSIONAL EXPERIENCE

DATA ENTRY OPERATOR

Duration: 2020 – 2023

Worked as a data entry operator at Mayoora Construction managing and organizing company data using Microsoft Excel. Responsibilities included updating spreadsheets, maintaining project records, preparing summaries, and ensuring data accuracy. Gained strong experience in handling structured data and using Excel functions for efficient documentation.

FRONTEND DEVELOPER INTERN

July 2025 – October 2025

Completed a frontend development internship at GAOTek, where I converted Figma designs into responsive React components using Tailwind CSS. Worked on UI implementation, product uploads, and content management using WordPress. Improved skills in modern frontend development, UI/UX implementation, and project collaboration in a professional environment.

PROJECTS

MACHINE LEARNING PROJECT – IRIS FLOWER CLASSIFICATION

Jan 2023 - Jun 2023

CodeAlpha Internship

Developed a machine learning model using Python and Scikit-learn to classify Iris flower species through data preprocessing, visualization, and SVM algorithm, achieving high accuracy and clear classification performance visualization.

SKILLS

Data Entry & Data Management	Documentation & Reporting	Communication Skills (English & Tamil)
Microsoft Excel	Administrative Support	Stakeholder Coordination

EDUCATION

Bachelor of Information Technology Specialising in Data Science

2023 - present

SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY

The program builds strong foundations in programming, databases, and analytical thinking, enabling students to work with data, support system operations, and contribute to technology-focused projects.
